

“All praise be yours, my Lord, through Sister Water, so useful, lovely, precious and pure.”

The Canticle of the Sun by St. Francis of Assisi

Learn more about our most precious resource, water... and actions you can take to protect it.

October 9th: HYDRAULIC FRACTURING “fracking” presentation and Q & A led by Marian Ronan, religious scholar and water activist. Hear about the process and its dangers and how New York City drinking water could be affected.

October 16th: “BLUE GOLD”, movie and discussion*

Think there will always be enough water? Think again!

Understand the environmental and political repercussions of the world’s dwindling water supply.

October 23rd: “LIQUID ASSETS”, movie and discussion*

Our water infrastructure, underground and taken for granted, is aging. NYC DEP reports nearly 600 water main breaks each year in NYC. There are 240,000 breaks in the US annually. Learn about the importance of maintaining our essential infrastructure systems of water, waste water and storm water, which provide a critical public health function.

October 30th: “TAPPED”, movie and discussion*

Look behind the scenes at the bottled water industry and its effect on our health, climate change and pollution.

Holy Name Church, Amsterdam and 96th St, lower chapel, **Tuesdays** in October, 7 to 9pm. RSVP janetcurley7@gmail.com

** movie discussions led by a representative of Food & Water Watch*
